ELEVATING ACCESSIBILITY

Travel from one floor to another with simplicity and style in a smooth, quiet Bruno Connect home elevator.

Bruno's Connect is a free-standing elevator that can be installed nearly anywhere in your home thanks to an independent rail system. While Connect home elevators do not need to be attached to a wall to operate, units can be installed very closely to walls to maximize open space in your home.

Give yourself ongoing peace of mind with a Bruno home elevator, knowing that you have safe and easy access throughout your home – now and in the future.

Multiple Sizes

Choose the Bruno Connect model that matches your individual needs and space: Compact, Classic or XL. Whether one or two people need to travel in the elevator at a time, Bruno has a solution. Take your laundry or pet along for the ride, too!

CONNECT COMPACT

500 lb Lift Capacity

One User

CONNECT CLASSIC

500 lb Lift Capacity
